FREE MARKET APPRAISAL

Without obligation, we will provide a free market appraisal of your property and will advise you of the best selling method e.g. Auction, Private Treaty or other.

In order to obtain the best current market value, we will take into consideration the following variables:

- Location
- Size
- Presentation
- Features
- Recent sales
- Similar properties for sale
- Market conditions

After considering where your property is positioned in relation to these variables, we will provide an estimate 'range', that your property will sell for. We do not inflate prices to secure a listing.

Simply fill out the details and send to us for prompt action.
